

WORKFLOW // BUSINESS PRODUCTS

Professional products for an efficient,
modern workflow.

WORK FLOW //

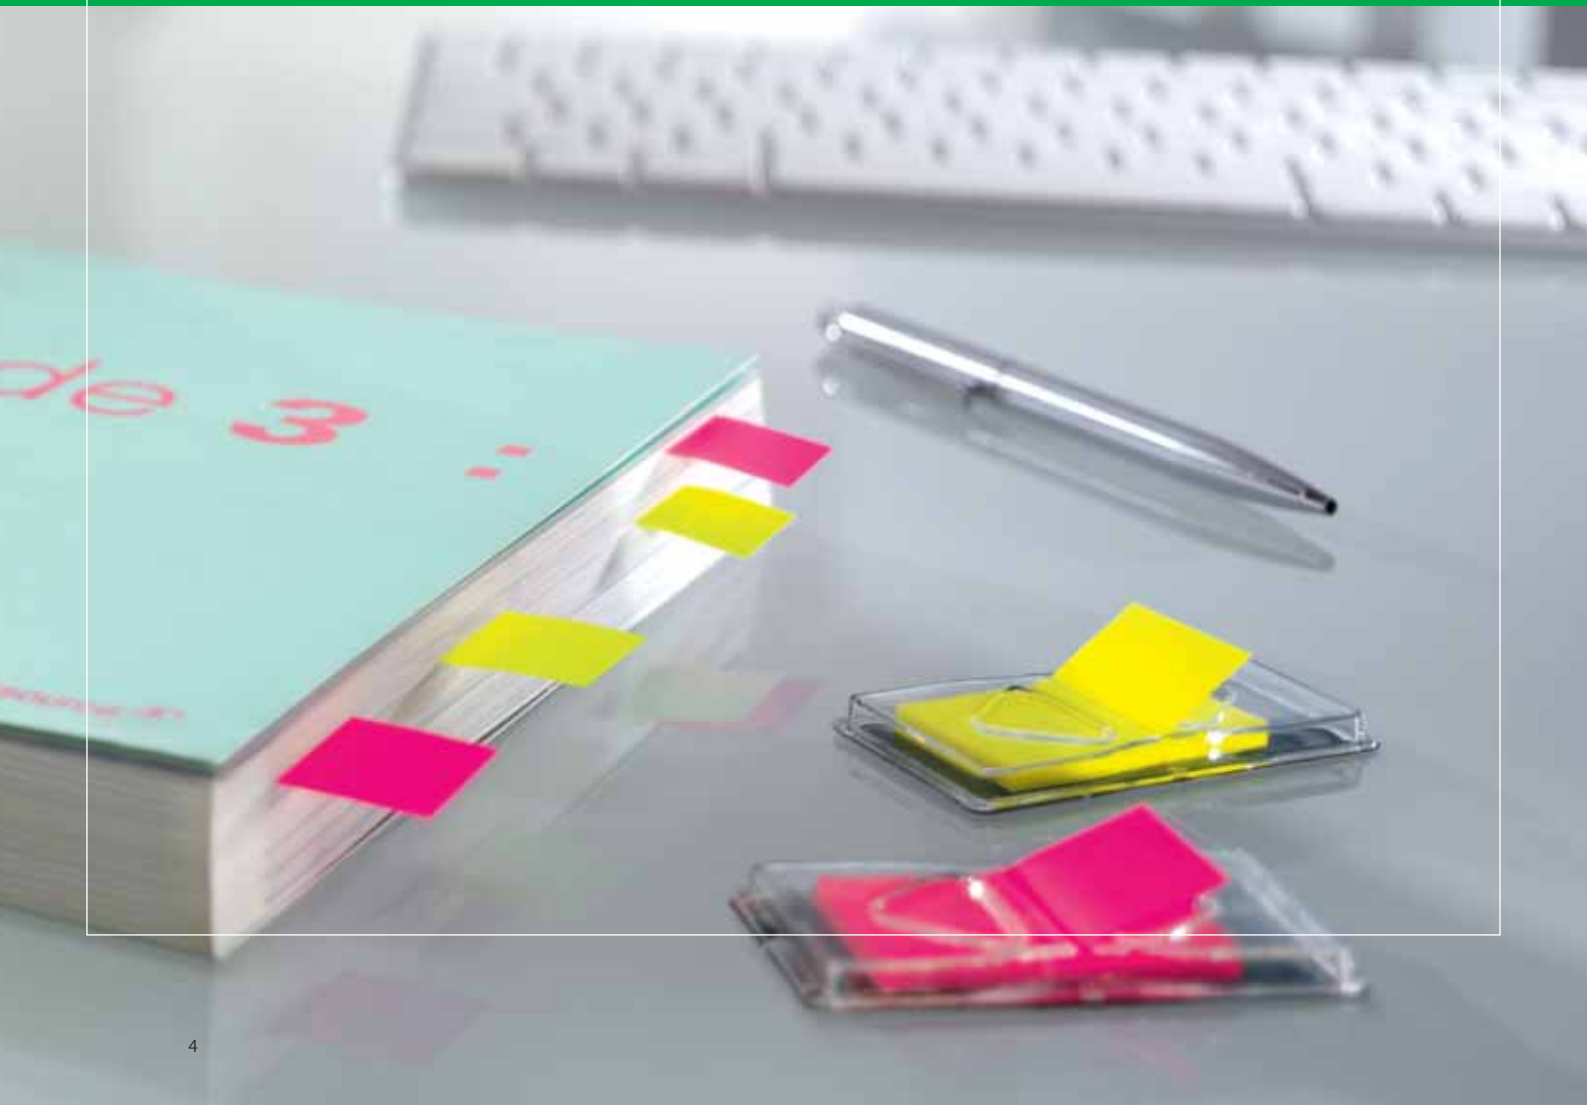

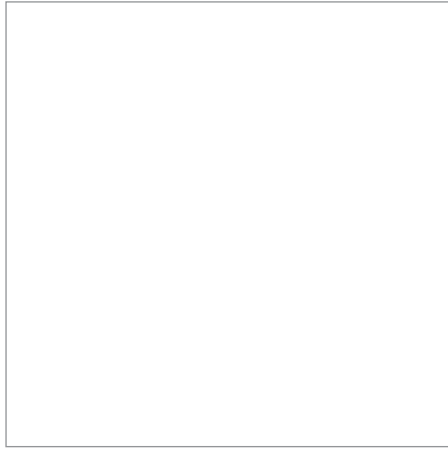

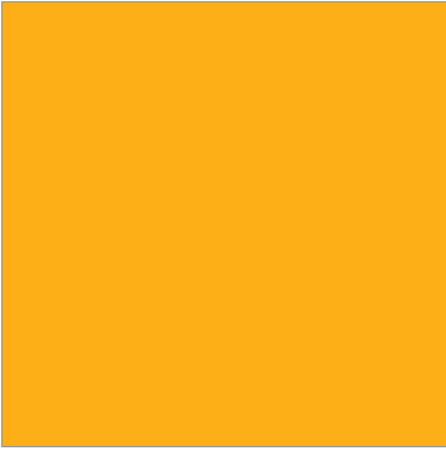

Sigel. Business with all senses.

We develop solutions for people who experience their professional life with all of their senses – including, of course, their business sense. With a feeling for form and function, we create new products. At the same time, our goal is to set benchmarks with business products that are innovations and classics at the same time. WORKFLOW stands for perfect work processes in the office, at events of all kinds or in the private sphere. Professional, high-quality Sigel brand products make workflow within the company, such as communication, organisation and labelling, simpler and more efficient.

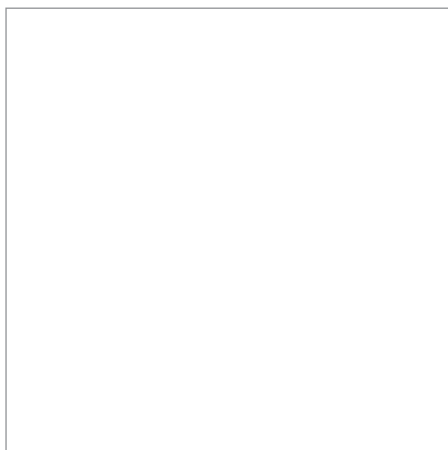

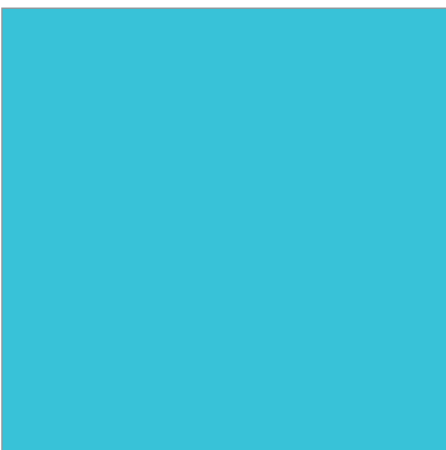

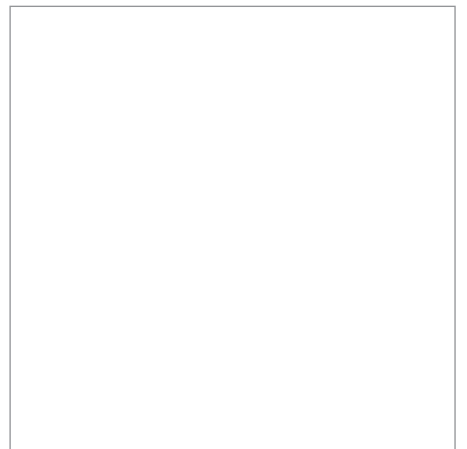

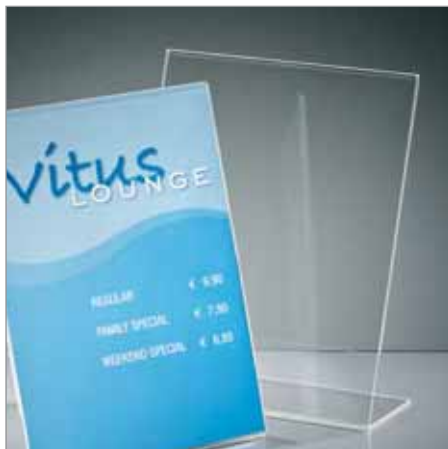

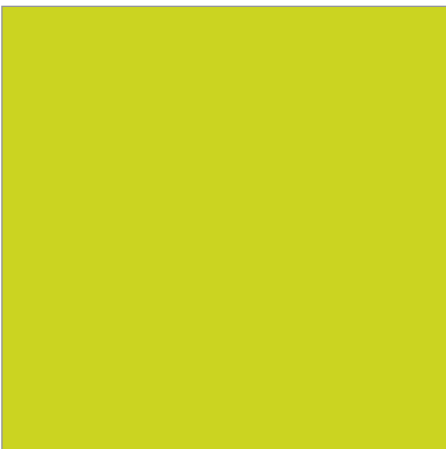

EFFICIENCY // QUALITY

Driven by our innovative strength, we constantly strive to achieve higher product quality and functionality. This, and our passion for business products, makes us what we are. For you, our customers, we are constantly in search of new organisation solutions that will make your workflow more reliable and efficient.

// Experience Sigel with all of your senses

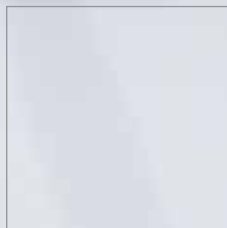

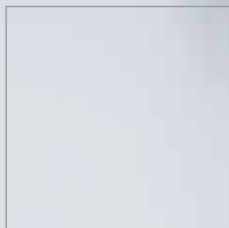

A very special kind of online shopping experience. Discover our products with all of your senses through the unique presentations in the Sigel 3D showrooms – almost close enough to reach out and touch.

// It takes 3 clicks to find a product

Innovative online and helpdesk tools, such as our Product Finder, our Label Consultant and the Business Card Finder, guide you to the product you are searching for – fast and stress-free.

// Helpdesk – around the clock, 24 hours a day

In our new Product Worlds you will find countless product tips and comparisons, including a helpdesk and realistic product presentations.

// print@web

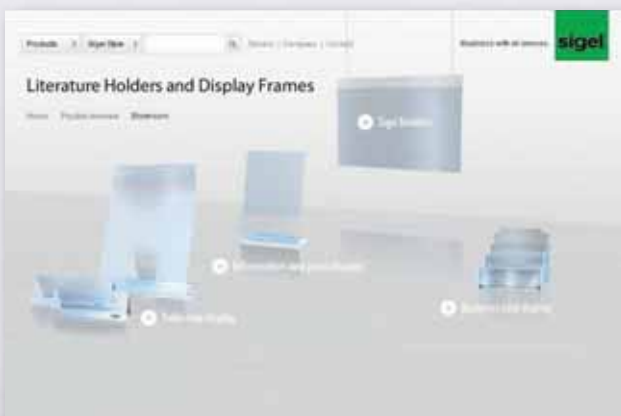

// Free Design Software "Enjoy your Photo"

Online shopping in the comfort of your own home:

// Buy online and have the goods delivered by the stockist of your choice

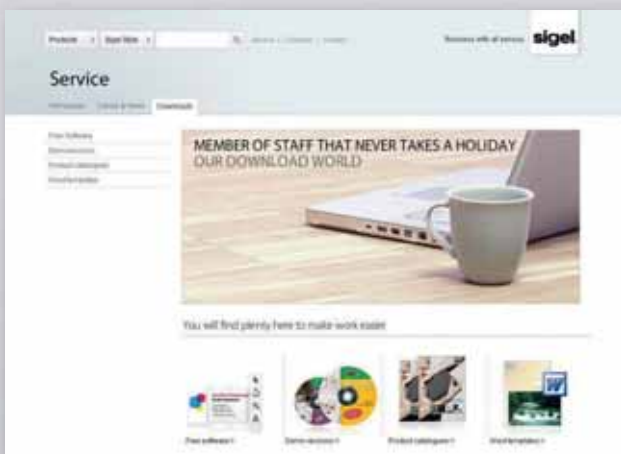

- Practical: it's easy to find and select products online
- Order directly from the stockist of your choice via www.sigel.eu
- Fast delivery service by competent suppliers

// 3D Showrooms – Sigel products almost close enough to touch

- Unique, realistic presentations of the products in 3D
- Animated presentation of the product features

3D Showroom "Table Top Display Frames"

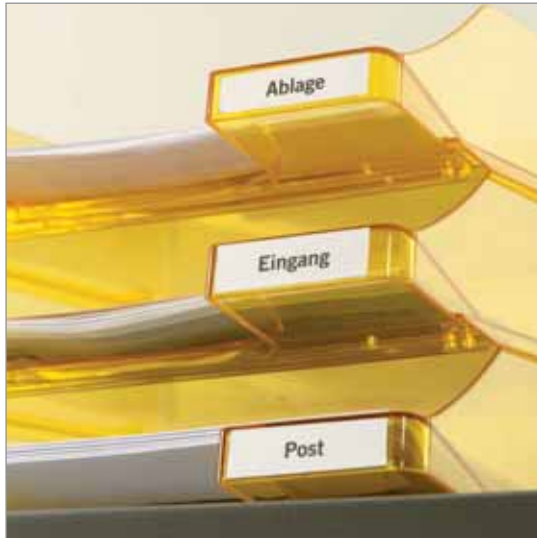

// Download Worlds – free software, online tools and much more

- Test Sigel software products
- Download free software (Freeware), e.g. "Business Cards in 2 Minutes"
- print@web: the easy way to design labels, business cards and much more, free of charge
- Practical downloads, e.g. templates for MS Word

Profit from our expertise

Sigel print media products are ideal ...
 ... if working fast and effectively is a priority.
 ... if high-quality, user-friendly products are important to you.

Take a journey of discovery with Sigel's colour-coded system

No matter whether you own an inkjet or laser printer, or work with a photo-copier: we supply the right paper quality for every purpose. And for any make of machine.

Take a look at our complete product range and let the colour-coded system on the Sigel packs be your guide:

Magenta stands for special paper for colour laser/copier

Cyan stands for special paper for inkjet printers

Yellow stands for all-in-one paper that can be printed on inkjet and colour laser printers, colour and b/w copiers

PC LABELS

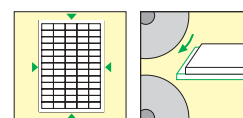

Fast, professional, effortless labelling.
For all applications, in a variety of formats.

Universal Labels	18 // 20
Removable Labels	21 // 21
Address Labels	22 // 23
Ring Binder Labels	24 // 24
CD/DVD Labels	25 // 26
CD/DVD Inserts	27 // 27

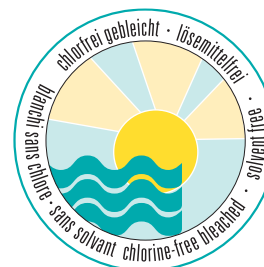

Guaranteed reliability

The label sheets are perfectly flat yet pliant, ensuring excellent running properties. The safety margin on all 4 sides is the secret to the reliable processing of Sigel labels in printers of all kinds: the adhesive does not stick to the printer drum or make it dirty during the printing process. We can therefore guarantee that the labels will not become detached from the sheet and stick to the inside of the printer!

Bleached without chlorine and solvent-free

We take special care in our choice of raw materials for the manufacture of Sigel labels. We use only solvent-free adhesive and chlorine-free bleached paper – for the sake of your health and the good of the environment!

Identity code system

The label's product code is printed on the back of each sheet. This enables you to find the correct template to print the labels, even if you do not have the pack handy. And when you run out of labels, you will know which ones to order.

Label colour coding for speedy orientation

The colour coding on the packs makes it quick and simple to find the label you need. Five colours are used for the different label types. All you have to do is decide which one you need. And the great thing is that Sigel PC labels are suitable for all types of printer: inkjet, laser, copiers or multi-purpose machines!

Label Colour Coding

UNIVERSAL LABELS

Sigel's Universal Labels are genuine all-rounders. From now on you'll be able to find the right label for every application, as all standard formats – from the smallest size up to A4 – are now available in the Sigel range! All your individual needs can be fulfilled. You'll also be impressed by the quality: all Sigel Universal Labels are simple to customize, can be printed safely and reliably and adhere securely to all surfaces.

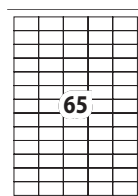

- // Simply customize and print out
- // All label formats are integrated into MS Office
- // **print@web**: design labels online at www.sigel.eu – simple and free

Brilliant, top-quality results

Sigel PC Papers are high performance products that have been adapted to suit all makes of printer through a wide variety of tests, and therefore will always deliver the very best results. Colour prints on Sigel PC Papers are impressive due to their unique colour intensity, contrast and contour sharpness. Texts, graphics and photos are shown to their best advantage and guarantee 100% satisfaction with the finished product.

Your printer will thank you

And you'll be just as enthusiastic, as Sigel Papers do much more than produce superb results with strikingly brilliant colours. The excellent running properties, the perfectly flat surface and the low dust formation mean less wear and tear both on your nerves and on your printer. Fewer paper jams and fewer repairs are assured.

Sigel Papers guarantee:

- // Low dust formation
- // Excellent running properties
- // High white
- // Perfectly flat surface
- // Protects the machine

LASER/COPIER PAPERS

If effectiveness and perfect print results are important to you, then the Sigel Colour Laser and Colour Copier Papers are ideal. Superb toner adhesion, excellent running properties and high UV resistance, producing prints that are guaranteed to be durable and long-lasting.

INKJET/PHOTO PAPERS

Brilliant print results are guaranteed with Sigel Photo Papers. Available in a choice of 5, 4 and 3 star qualities, for a wide variety of applications, you are certain to find the right photo paper to meet your needs. For amateur photographers and professionals: first-class quality is guaranteed.

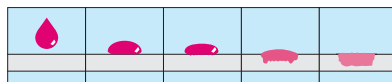

- // Ideal for photo prints
- // Brilliant colours
- // Subtle colour gradation
- // Star qualities to meet all needs
- // Dries instantly

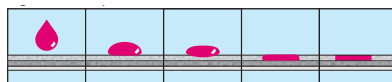

No matter what type of printer you have, Sigel's range of inkjet papers guarantees the best print results. Continual new developments mean that our paper products are always compatible with the latest technical standards of inkjet printers.

Not all paper is the same

In contrast to normal photo paper, the ink absorption layer on Sigel Inkjet Photo Paper absorbs each drop of ink separately, preventing ink bleed. Therefore Sigel's specially coated inkjet papers produce superb prints of pictures and graphics.

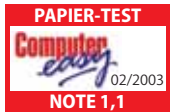

Normal uncoated paper

Specially coated Sigel Inkjet Papers

The star system for Photo Papers – for speedy orientation

 <p><i>"I was sceptical at first. But Sigel's Ultra Photo Paper really is the jewel among photo papers. Tested and recommended by professionals

Sigel Photo Papers are of superb quality. They pass even the toughest tests with flying colours.

Sigel guarantees that its photo papers produce excellent results on all inkjet printers. The product quality has been attested by several independent PC and photography magazines.

In the comparison below the differences between Sigel papers and others can be seen clearly:

Extremely fast drying

Ultra Photo Paper – for photos of laboratory standard

Our top product – for real professionals and people for whom photography is more than just a hobby. Sigel's Ultra Photo Paper will impress you with its brilliant colour reproduction with rich colour depth, and superb prints that are rich in contrast due to the super-white surface of the paper. The subtle colour gradation on these papers produces perfect, realistic skin tones.

Ultra Photo Papers dry instantly after printing and last a lifetime. Thanks to the high level of light stability, the colours on this paper remain clear and bright for up to 91 years (tested by the Rochester Institute for Technology).

- // Pin-sharp pictures
- // Meets the highest standards
- // Super-white surface
- // Backed with photo base material
- // Prints dry instantly

Reduce ink usage by up to 30%

By choosing the printer driver settings recommended by Sigel (if available), you can reduce ink usage by up to 30% as compared to the usual "Photo Paper" setting, while still achieving excellent results. The special photo coating produces brilliant colours even with a low application of ink. The capillaries prevent the different coloured inks from bleeding, resulting in a pin-sharp print image.

ULTRA PHOTO PAPERS ★★★★★

Sigel's 5-star Photo Paper.

To meet the highest standards – for prints of photo lab quality.

PC BUSINESS CARDS

Print your own, quickly and easily.

Instantly available. Always up-to-date. Good value.

PC Business Cards, 3C	58 // 61
PC Business Cards, mp	62 // 63

The advantages are obvious

Sigel Business Cards allow you to be flexible. You can avoid unnecessarily high purchase quantities, time-consuming proof-reading, long delivery periods and high costs. From now on you can simply print your business cards yourself, superb looking cards of print shop quality! Enjoy your new-found flexibility – just think, for example, how quickly someone’s e-mail address can change. Absolutely user-friendly – just do it yourself!

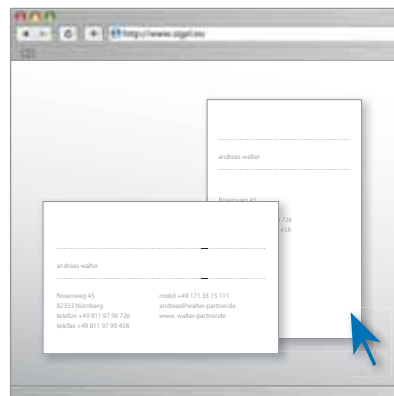

Business cards in 3C technology with smooth cut all around:

- Clean: without perforations
- Cut: smooth cut all around
- Cards: high-quality, sturdy fine cardboard

Business Cards with microperforations

- Precise edges – almost clean-cut.
- High quality – premium, sturdy fine cardboard

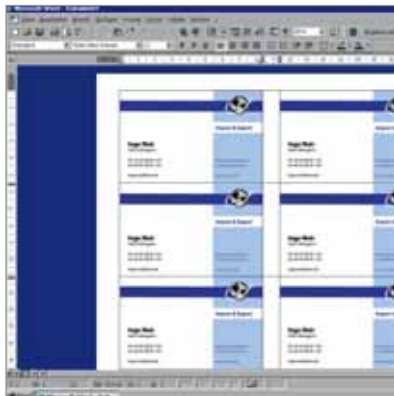

- Sigel Business Cards**

// Business Cards in 2 Minutes
Free software to design your own business cards in just 2 minutes

3C BUSINESS CARDS

Sigel's 3C technology meets the highest standards when it comes to quality and perfection: smooth cut all around, without perforations! There is no more professional way to produce your own business cards. And yet the whole procedure is simplicity itself: customize, print and detach – that's all!

It's so easy: thanks to *easy lift*®!

Our *easy lift*® technology makes it even easier to detach the business cards. Simply bend back the backing paper and the cards spring from the sheet almost of their own accord, making them simple to grip and detach. Try it for yourself!

“Save Nature” – for environmentally friendly contacts

Sigel's white 3C Business Cards now come in environmentally friendly FSC brand quality (Save Nature). The business cards are made of FSC-certified paper from sustainably managed forests. In addition to this, the paper is bleached without chlorine and can therefore can be recycled with other waste paper to help protect the environment.

PC BUSINESS CARDS WITH MICROPERFORATIONS

The Sigel PC Business Cards with ultra-fine microperforations have an excellent price-performance ratio – and the results are impressive, too. A special manufacturing procedure with 28 perforation cuts per cm guarantee that the cards are easy to separate from the sheet and have precise edges that are almost clean-cut.

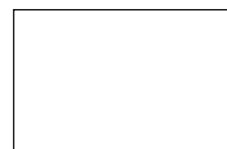

The PC business cards for Ink/Laser/Copy – single or folding – white or marbled

The business cards with ultra-fine microperforations come in classic white and in marbled beige or grey. And they are not just business cards: they can also be used as appointment cards, for organising information, as flash cards, tickets, price labels and much more besides. Why not distribute your opening hours, invitations or even advertisements in a different format – one that fits into any pocket?

The right card for every occasion

Sound familiar? There's a public holiday coming up and you want to send a friendly message to all your business associates or friends. Or you need a last-minute birthday present and a gift coupon seems ideal...

At work or in your private life – Sigel's PC Design Cards are perfect for a wide variety of occasions. For birthday greetings and good wishes, gift coupons or invitations, as thank you cards and much more besides. Many of our design cards come with matching envelopes in the pack – very practical! Otherwise white or transparent envelopes, or envelopes with a matching motif, are available separately.

"Symphony", "Romance", "Flair", "Esprit"

The designs on these cards are as cheery and eloquent as their names. Discover the beautiful yet practical sides of the Sigel Design Cards on the next few pages – all of which can be printed on the inside using any inkjet or laser printer or copier.

Practical: Table Top Display Frames to protect your tent cards

The Sigel range includes plastic Table Top Display Frames that are just the right size for your customized, fine cardboard tent cards. Simply slide the cardboard tent cards into the tent form display frames from the side. The frame protects your cards from dirt and keeps them upright.

PC INSERTS

How to make organisation fun! Sigel's Inserts to customize on the PC are the professional way to label files, suspension files, shelves and goods. Simply add a text with the PC and print, separate from the A4 sheet, insert or attach – that's all!

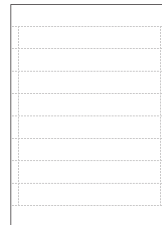

PC Inserts for lever-arch files

Create a clear overview of your files and enjoy the new, individual look that they will receive. Narrow or wide – there's a Sigel Insert to fit every lever-arch file with a pocket on the spine. Simply label on the PC, separate along the microperforations and slide in.

PC Inserts for lever-arch files (Ink/Laser/Copy)							No.
28 x 153 mm	185 gsm	white	special cardboard	180 pcs.	20 sheets		LP 732

Record Cards – practical and versatile

Sigel's PC Record Cards have proved indispensable for customer lists, recipes or as study aids. Simply print on the text with a laser or inkjet printer and separate from the sheet along the ultra-fine microperforations.

PC Record Cards, DIN formats (Ink/Laser/Copy)						No.
A7	185 gsm	white	special cardboard	160 pcs.	20 sheets	LP 701
A6	185 gsm	white	special cardboard	80 pcs.	20 sheets	LP 702

PC Hanging Labels – price labelling made simple

Sigel's Hanging Labels to customize on the PC come on an A4 sheet and have a pre-punched hole, making them easy to attach. It is simple to print on the label using the enclosed labelling software. After printing, separate along the microperforations and attach to the goods as required.

Hanging Labels, for price and goods labelling (Ink/Laser/Copy)							No.
27 x 40 mm	200 gsm	white	special cardboard	1470 pcs.	30 sheets	LP 715	
38 x 55 mm	200 gsm	white	special cardboard	750 pcs.	30 sheets	LP 716	
48 x 70 mm	200 gsm	white	special cardboard	480 pcs.	30 sheets	LP 717	

PC Shelf Labels

For price or goods labelling, as orientation or to help keep things neat – printed using the PC and printer, these shelf labels always look professional. The design, printing and separation from the A4 sheet is quick and simple.

PC Shelf Labels (Ink/Laser/Copy)							No.
105 x 38 mm	170 gsm	white	special cardboard	420 pcs.	30 sheets	LP 783	

PC Magnetic Labels

The perfect solution if there is no scanner strip or rail available to insert shelf labels: simply use one of the Sigel Magnetic Labels. It will hold securely to metallic surfaces as the reverse side is magnetic. The front is white, and can be printed using an inkjet printer, then cut to the correct size.

Magnetic Paper (InkJet)						No.
A4 (210x297 mm)	380 mic	white	coated	5 sheets	IP 440	

PC FILMS

Don't leave anything to chance when giving a presentation. Sigel's transparent films are a reliable medium for any overhead projector. The completely flat surface, brilliant colours and the pin-sharp prints speak for themselves. There are also a variety of solutions available from the Sigel range for use in more extreme situations, such as in work shops or anywhere that is dirty or exposed to the elements.

Sigel Films – guaranteed for all printer types

Sigel PC Films guarantee perfect running properties in all printers. No matter whether you work with an inkjet or laser printer or a photocopier, Sigel has the right film for your needs.

Inkjet/Laser/Copier Film – the “All-in-one” film

This transparent film can be used in almost all copiers or printers, which means that only one product needs to be ordered for all intended uses. The principle is simple: one side of the film is designed for printing with an inkjet printer while the other side is for lasers and copiers.

All-in-One Film (Ink/Laser/Copy)			No.
A4 (210x297 mm)	100 mic	with removable sensor strip short edge, coated, auto feed	50 sheets MF 150

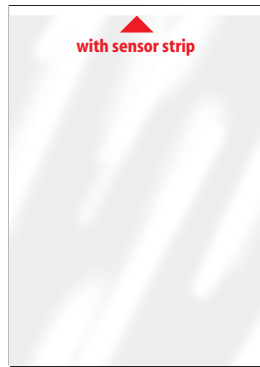

Inkjet Films – always a good choice

This transparent inkjet film is a true classic. The film is specially coated on one side, guaranteeing fast ink absorption, a vibrant print image, brilliant colour reproduction and a high level of transparency – for brilliant, photo-realistic print results.

Inkjet Films, transparent				No.

CREATIVE PHOTO FUN

Ideas for very special photo motifs.
For you or as a great gift.

Transfer Films for textiles	80 // 81
Photo Balloons	82 // 82
Window Film	83 // 83
Labels for bottles	83 // 83

Place your photos centre-stage

So you love taking photos and the great results you achieve? And maybe you'd like to share these motifs with others. Here are some ways to make more of your best moments! You'll find plenty of ideas on the following pages: the new Photo Balloons, T-shirts or Window Films to design yourself are just a few examples. Your favourite motifs will really come into their own with the Sigel photo products.

Enjoy Your Photo!

Positioning, editing and framing photos made easy! It is extremely simple to alter and personalise your pictures with a wide variety of special effects. This design software comes free when you purchase Sigel Photo Balloons, or is available online at www.sigel.eu!

NEW!

New: Transfer Films for Textiles – now also for laser printers and copiers

Start your own T-shirt collection with Sigel's new Textile Films. No matter whether you are using an inkjet or laser printer or copier – we have the right textile transfer film for you.

These are the new films for laser printers and copiers, available for light or dark textiles in reliable Sigel quality. They couldn't be easier to use. Simply select a motif from your personal pool of photos, print out using a laser printer or copier, cut out the motif and iron it on – and there you have your own unique item of clothing. What's more, the films are also ideal for printing company logos onto baseball caps or bags.

Laser transfer films for textiles					No.
A4 (210x297 mm)	transparent	light textiles, incl. 1 sheet ironing paper	160 mic	3 sheets	LP 650
A4 (210x297 mm)	white	dark textiles, incl. 1 sheet ironing paper	220 mic	3 sheets	LP 653

1 // Print out

2 // Peel off backing paper

3 // Iron on

4 // That's all!

Transfer Films for Textiles – for inkjet printers

Sigel's Textile Transfer Film is also available for inkjet printers. The films are ideal for both light and dark textiles, and are just as easy to use as the transfer films for laser printers and copiers. Simply design, print out, cut out and iron on – that's all!

InkJet transfers for textiles					No.

Design your own bi-fold cards – for individual card creations

Are you the kind of person that enjoys designing their own greetings cards? If so, you should take a look at our range of printable bi-fold cards on page 68. The white cards are available in several different formats. They are pre-scored and can be printed using an inkjet or laser printer or copier.

NEW!

New: Photo Balloons – a very special gift or decoration

The new Sigel Photo Balloons are the perfect way to turn photos into a creative gift or decoration. Original and individual, the balloons are ideal for decorating gifts and beautifully set tables, are a witty party accessory or an imaginative “photo frame” for your favourite photos or amusing snapshots.

There are no limits to the range of uses: they could be an unusual place card at weddings and birthday parties, or a creative birthday invitation with no excuses for forgetting the date as the balloon stands in the home as a constant reminder. So why not send a personal message of congratulation in 3D on an individually designed balloon – perhaps in a bouquet of flowers or gift basket? The element of surprise is guaranteed.

Inkjet Photo Balloons to design and customize				No.
A4 (210x297 mm)	high white	1 heart-shaped balloon, 2 round balloons, design software and accessories	3 set	IP 900

The photo balloons are extremely easy to design using the free design software enclosed in the pack. Then simply print out on an inkjet printer, detach the balloon from the backing sheet, inflate and assemble – that’s all!

1 // Print out

2 // Detach

3 // Assemble

4 // The photo balloons are ready to use

Window Film – for homemade window decorations

Sigel's Inkjet Window Film makes all decoration dreams come true. It just takes a few minutes to design a creative motif on the PC, print it out using an inkjet printer and attach it to a glass door, window or car window. In addition to this, it can easily be removed again – very practical.

InkJet Window Film to design				No.	
A4 (210x297 mm)	clear	self-adhesive, peel off and reuse	120 mic	4 sheets	IF 142

Labels for Bottles to design and customize

The perfect way to turn a very special vintage into a gift. Simply print your company logo onto the label, or give a special person a bottle of champagne for their birthday with their own picture on the front. The ink will not run, even in a wine cooler, as Sigel Labels for Bottles are absolutely smudge-proof. Go for the wow factor – both in your professional and private life.

Labels for bottles to design					No.

INFORMATION DISPLAYS

Beautiful design to meet functional needs.

Practical, unusual, high-quality.

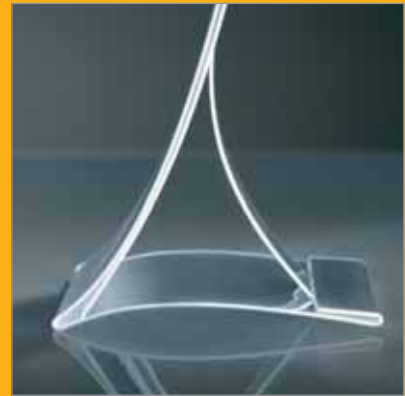

The perfect way to place information centre-stage

At trade fairs and seminars, in bars and restaurants or in reception areas – information systems are an indispensable part of our everyday lives. They are put to use wherever information needs to be particularly attention-grabbing. And it's always an added bonus when their superb material and top quality shine through, as in the case of the Sigel Information Displays.

It's also worth mentioning that it is quick and easy to insert information: all you have to do is slide it in!

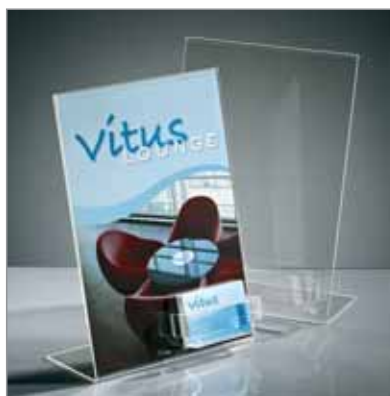

But let's not jump ahead – instead, we'd like you to discover for yourself how extensive the Sigel range of Information Displays really is.

Information of all kinds – clearly on display

There are a huge number of Information Displays to choose from, in every popular format and for every possible application. Our range includes slanted displays and displays for double-sided presentation, as well as products that are astonishingly innovative, e.g. a Table-Top Display Frame that folds down completely flat for easy transportation. Then there is our fascinating sign holder, suspended from the ceiling so that your message is impossible to miss. And if you need something for your bar or restaurant, just take a look at our Pictogram and Number Display Frames, money tray, information and price holders ... Sigel products are always a good choice!

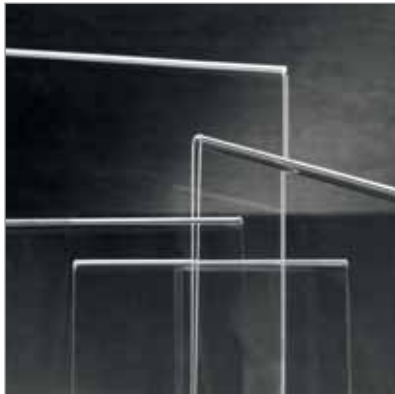

TABLE-TOP DISPLAY FRAMES

Sigel's Table-Top Display Frames are beautifully designed and space-saving at the same time, making them ideal for presenting sales promotions, notices and special offers. They are eye-catching on any counter or desk, in salesrooms and at trade fairs – presuming, of course, that you want to grab your customers' attention and present your information in its full glory!

Table-Top Display Frame, slanted

Large or small – that's the question. With frames ranging from A6 to A3 you'll be spoilt for choice – and Sigel's slanted Table-Top Display Frames are always striking. In addition to this, being made of clear acrylic, they are of extremely high quality, and it couldn't be simpler to insert your information. Simply slide it into the display frame – that's all!

What's more, the frame's slanted form makes it particularly sturdy, and, as a final touch, self-adhesive rubber pads for under the base are included in every pack for even more stability. Are you convinced?

Table-Top Display Frames, slanted					No.
A3 (297x420 mm)	incl. rubber feet	acrylic	clear	1 pc.	TA 113
A4 (210x297 mm)	incl. rubber feet	acrylic	clear	2 pcs.	TA 110
A4 landscape (297x210 mm)	incl. rubber feet	acrylic	clear	2 pcs.	TA 111
A5 (148x210 mm)	incl. rubber feet	acrylic	clear	2 pcs.	TA 112
DL (105x210 mm)	incl. rubber feet	acrylic	clear	2 pcs.	TA 115
A6 (105x148 mm)	incl. rubber feet	acrylic	clear	2 pcs.	TA 114
A7 landscape (105x74 mm)	incl. rubber feet	acrylic	clear	2 pcs.	TA 117

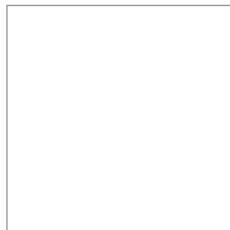

Particularly sturdy due to slanted form.
Self-adhesive rubber pads enclosed.
Slide insert into the frame – that's all!

Table-Top Display Frames, upright

No matter whether you want to put out place cards, get important information across or regularly display current special offers – Sigel's upright Table-Top Display Frames with their unlimited uses are ideal in both the professional and private sphere.

Interesting to note: the upright form allows you to present your message on both sides of the frame! This means you can place the frame in the middle of a counter or desk, where it is clearly visible to all around.

Table-Top Display Frames, upright					No.
A4 (210x297 mm)	with table tent base, incl. 2 clips	acrylic	clear	2 pcs.	TA 120

A7 landscape (105x74 mm)	with table tent base	acrylic	clear	2 pcs.	TA 128

Extremely sturdy thanks to the stable base.
Two clips hold the A4 inserts securely in place

Experience Sigel's Table-Top Display Frames in 3D!

Our 3D showroom for Literature Holders and Table-Top Display Frames is a virtual shopping experience of a very special kind. This is where you can encounter our complete range of display frames in three dimensions, almost close enough to touch. Discover the unusual designs and astonishing variety in our product worlds at www.sigel.eu

Table-Top Display Frames with a practical additional compartment

No need for compromises! Cleverly place your information centre-stage, and, at the same time, give your customers the opportunity to take a business card or other information with them. This classic among the table-top display frames comes with two clear advantages: striking advertising space combined with an additional compartment for business cards, postcards or small brochures. And, of course, it is made of high-quality, transparent acrylic.

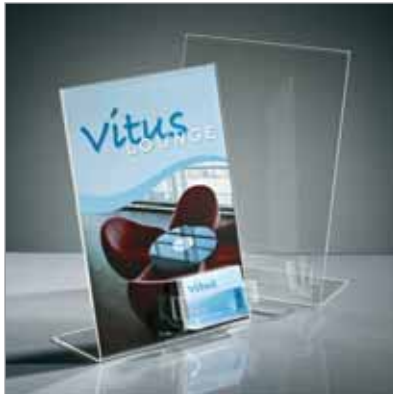

Table-Top Display Frames with brochure holder DL				No.
A3 (297x420 mm)	with useful additional compartment for DL brochures	acrylic	clear	1 pc. TA 233

Table-Top Display Frame with business card holder				No.
A4 (210x297 mm)	with useful additional compartment for business cards	acrylic	clear	1 pc. TA 230

Table-Top Display Frame, fold-back – extremely flat, sturdy and ideal for out and about

Sigel's fold-back Table-Top Display Frames provide a completely new solution. Due to their form, material and method of assembly, they are light as a feather, space-saving to transport and can therefore be used any time and anywhere. When folded down, they even fit into a briefcase. In addition to this, they are made of robust, clear rigid plastic, are absolutely stable and couldn't be easier to assemble. It's amazing how versatile display frames can be.

Table-Top Display Frames, fold-back				No.

A5 (148x210 mm)		rigid plastic	clear	2 pcs. TA 161
A6 (105x148 mm)		rigid plastic	clear	2 pcs. TA 162

To set up, simply fold out – guaranteed shatter-proof.
Child's play to assemble.
Attention-grabbing due to slanted, curved shape.

Table-Top Display Frames, tent form – truly versatile

For information, labelling or notices, at seminars, conferences, on reception and information desks, for labelling exhibits at trade fairs or simply as name holders – there are practically no limits to the ways in which the tent form display frames can be used.

They are made of sturdy, clear rigid plastic. The tent form means that the display frame stands securely, and at the same time allows information to be read from both sides. Each pack includes 10 white insert cards to print as required.

Table-Top Display Frames, tent form				No.

NEW: PICTOGRAM AND NUMBER DISPLAY FRAMES

Brand new in the Sigel range: beautifully designed display frames with a message in the form of a pictogram or classic numbering. Made of high-quality acrylic, the Sigel Display Frames send a compelling message. From now on, you can let people know about where they can smoke or not, if a table is reserved, or if they may use their mobile phone, and all without the need of words.

Information clearly visible from all sides

Very practical: the information appears on both sides of the frame! This means they are clearly visible from all sides when displayed on desks or counters. They are also perfect for outdoor use – the Sigel Pictogram and Number Display Frames brave all weathers, are absolutely robust and stand securely.

SIGN HOLDERS

If you are looking for a striking and unusual way to integrate your advertisements into a room, look no further than the Sigel Sign Holders. They guarantee that your papers and posters are extremely decorative and well-protected at the same time.

Applications to suit your needs

When suspended from the ceiling, the sign holders are exactly at eye level and can be used to display information from both sides. Alternatively, simply mount them on the wall. Really easy: the inserts can also be removed and replaced while the holder is still hanging up!

Sign Holders					No.

Money Trays

The Money Trays with their indentation for the easy removed of coins and notes are indispensable on any check-out in shops or bars and restaurants. These timeless products are made of extremely hard-wearing plastic. Four rubber pads on the bottom prevent them from sliding around.

The "Comfort" Money Tray can be customized using the paper insert, turning it into additional advertising space.

Simply slide the paper into the insert panel

NAME BADGES

Practical and extremely versatile – that sums up Sigel’s professional Name Badges. It doesn’t matter whether you decide on the classics with a clip, combi-clip or curved pin, or if you’d rather try our revolutionary new product “OneDay OneWay”, the quick, simple name badge for one-off use. One thing is guaranteed: the Sigel brand luality.

PC Insert Cards in 3C technology with smooth cut all around:

Clean: without perforations

Cut: smooth cut all around

Cards: high-quality, sturdy fine cardboard in Sigel’s FSC brand luality

Practical and environmentally friendly: the 3C insert cards in FSC brand luality made by Sigel

“Save Nature” – all Sigel 3C insert cards are made of FSC-certified paper that comes from sustainably managed forests. In addition to this, it is bleached without chlorine and can therefore be recycled with waste paper – to protect the environment.

Just do it yourself!

Customizing the 3C insert cards for your name badges couldn’t be easier or more professional. It’s simplicity itself: you can use our free MS Word templates, available at www.sigel.eu, or download our free software, to design the cards. It is also quick and easy with print@web, where you can design your name badges directly on our website, free of charge and without having to download software.

It’s so simple: design, print, detach – that’s all!

Name Badges with Combi Clip or Curved Pin

With the Combi Clip Name Badges the choice is yours, as they can be attached using either the clip or the pin. The Name Badges with a Curved Pin have a shielded pin tip. Both types of Name Badge have a thumb slot on the back, which allows the easy replacement of the cards. PC-printable insert cards to fit these Name Badges, in innovative 3C technology (smooth cut all around) are also available from the Sigel range. New: Sigel's 3C Insert Cards now come in FSC brand quality ("Save Nature").

Secure: the flap closes the pocket on the name badge.

Practical: print your own 3C insert cards (smooth cut all around), detach and insert – that's all!

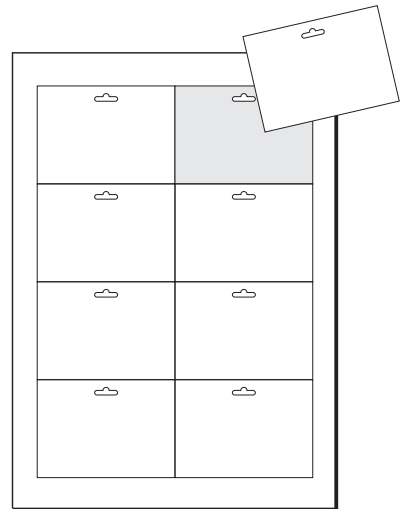

New and available exclusively from Sigel:
"OneDay OneWay" Name Badges!

Practical, quick and professional! This describes the brand new "OneDay OneWay" Name Badges in the Sigel range perfectly. The special feature is that the name badge consists only of one sturdy, printable card made of fine cardboard, with a pre-punched slot and a black clip. Since there is no plastic pocket, there is no fiddly insertion of the card. Discreet: the black clip blends discreetly into the background against a business suit, focusing all attention on the name badge. It goes without saying that the cards, made of fine cardboard, come in FSC brand quality made by Sigel ("Save Nature").

PAGEMARKERS

For the office, when studying or at home –
let Sigel help you bring order to your life.

Perfectly highlighted – perfectly organised

Most people are now used to working with PageMarkers. There is such a flood of information in the office, at college or at school that the idea of working without aids to marking and highlighting is almost inconceivable. However, nowadays PageMarkers are also indispensable in the private sphere: they help you find your favourite recipe, let you know which article you read last in your magazine and can even appear as notes in a photo album, telling you which pictures you still want to add – without having to write on the album itself.

There are so many reasons to use PageMarkers – it's good to know that Sigel has such a varied range for you!

Sigel PageMarkers – unbelievably varied

It's incredible but true: Sigel not only has a wide selection of classic PageMarkers in many different colours and formats, but also transparent products and markers that can be written on or that come with a clip for when out and about. In addition to this, Sigel PageMarkers come in a variety of great designs that can also be used as a bookmark! And then there are the superb Z-Markers. This innovation by Sigel means that your PageMarkers are always on hand. They come in a dispenser in a clever "Z" form, making them simple to remove.

Brand new: the great Marker-it Sets. These tried and tested Sigel PageMarkers are now available in sets, each with a different luminous marker pen, e.g. the "2 in 1" marker pen with 2 nibs, one in neon green and the other neon yellow.

Perfect organisation that's environmentally friendly!

We consider the quality and sustainability of our products a matter of top priority. All Sigel PageMarkers are made of recyclable material and with completely solvent-free adhesive – for the sake of your health and the good of the environment!

PAGEMARKERS

Our little colourful helpers are unashamedly versatile. Organising, structuring and highlighting are simplicity itself, as these environmentally friendly strips mark in a flash and make everything clear!

The little colourful paper strips

You're sure to find your favourite colour and format among these markers. They are always ready to hand in the practical pocket set. These little helpers can be written on and are self-adhesive. They can be removed cleanly, are recyclable and are manufactured with solvent-free adhesive – for the sake of your health and the good of the environment.

So young and already an award-winner!

Our new "Recycle" PageMarkers have been awarded the Blue Angel seal, and with good reason. The markers are made of 100% recycled paper and the adhesive is completely solvent free. However, it goes without saying that you don't have to compromise on function and quality: the markers can be written on and removed cleanly.

A clever idea – the PageMarkers with a clip

A superb innovation for people on the go. You can now take your PageMarkers with you wherever you go: to meetings, or simply to work outside in the park. On the back of the stainless steel-look plastic card there is a clip, with PageMarkers in different colours, shapes and materials on the front. Simply attach to your notepad, document or notebook and you're good to go!

TRANSPARENT PAGEMARKERS

See clearly with the wide variety of Sigel transparent PageMarkers. Now important text passages no longer need to be covered up. No matter whether you prefer paper PageMarkers with a classic coloured tip or would rather highlight with film PageMarkers in luminous colours: you're sure to find something to suit your tastes.

HN 670

HN 671

HN 677

HN 672

Keep it clear: the classic with the coloured tip

The transparent PageMarkers with a coloured tip are twice as practical. Thanks to their colourful, luminous tips they are ideal for structuring and organising. At the same time they are completely transparent, which means they do not cover any text. The markers are made of paper, can be written on, removed cleanly and recycled, and are made using solvent-free adhesive.

Intelligent features: transparent, luminous and durable!

These transparent, tear-proof Sigel PageMarkers are ideal for structuring and marking. They highlight important text passages without covering any of the text.

In the shape of an arrow, they are also a time-saving signpost. The markers are made of tear-proof, robust film material: they always look brand new and yet can easily be reused several times. In addition to this they can be written on, removed cleanly and recycled, and are made with solvent-free adhesive.

BUSINESS CARD ACCESSORIES

Small accessories with an important task to fulfil: to store your business cards in style.

First impressions count

A meeting is pending. Or an appointment outside the company. You're going to meet a new business associate and are prepared down to the last detail – even your outfit is perfect for the occasion. And what normally happens after you shake hands? Exactly: you exchange business cards, something that is as obvious as it is sensible. And the personal impression you make is equally important. Your cards should represent your image, say who you are, so make sure the spotlight falls on them by providing them with the perfect outfit, too: at home, in the office and on business trips. Organised and sophisticated.

Better organisation and filing

Sigel Business Card Accessories instantly provide you with a clear overview of your existing contacts while providing flexible, reliable ways of managing your own cards in the future. From functional cases to practical storage boxes, you will always find just what you need in the Sigel range to store your business cards to your satisfaction. Clearly structured filing of cards received from business associates is also simple using our card holders and organisers. The Sigel Business Card Accessories are impressive both because of their appealing look and their quality contents, such as the practical index.

What's your type?

Being choosy is normal, both when it comes to picking out clothes and to selecting accessories. The Business Card Accessories in the Sigel range give you the option to choose an outfit for your cards that complements your personal taste and style: Sigel's cases, boxes, card holders and organisers not only come in different designs, but also in a range of materials.

Exquisite and sophisticated:
Leather-look Business Card
Accessories!

Extra tip: the Sigel Business-Card Software with over 4,000 motifs, clip art motifs, special effects and much more

Quick and simple: Produce your own business cards on the PC!

Sigel Business cards will impress you with their professional appearance and print shop quality. Save yourself unnecessarily high purchase quantities, time-consuming proof-reading, long delivery periods, and high costs!
(Read more from page 56 onwards)

BUSINESS CARD CASES

Say goodbye to dog-eared corners, dirt and accidental creasing! Store your business cards in a protective case. Each model is an individual – and small enough to slip into any pocket. Simply ideal for making a great impression. Youthful and modern or classic and sophisticated: the choice is yours!

TELEPHONE RING BINDERS

You will be organised down to the last detail when you use Sigel's leather-look Telephone Ring Binders. Not only do they look good, but they are also functional and practical, as they have plenty of space for telephone numbers, business cards, addresses, notes and much more besides.

SO 120 // for 220 entries

SO 121 // for 330 entries

// **High-quality leather-look**

// **Numerous practical functions**

// **Incl. pen, notepad and sticky notes**

The Telephone Ring Binders pack an amazing amount into a small space and are multifunctional aids to organisation due to their many practical functions. Depending on their size, they contain 20 (or 25) insert sheets with space for 160 (or 250) entries. Up to 60 (or 80) business cards (max. 90x65 mm) can be stored in the 10 clear pockets. File your addresses in the 12-part A-Z register. The notebook has plenty of room for jotting down notes while on the phone, and there are sticky notes that allow you to place important appointments or memos where you can't miss them.

ID Wristbands

Price Labelling

**Accessories for
catering trade**

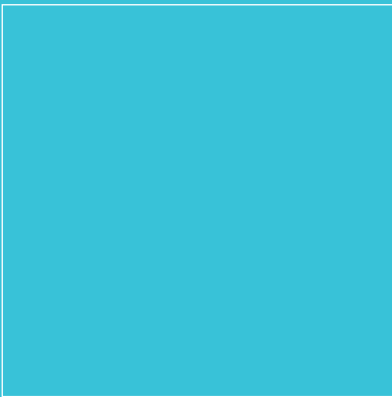

Sigel's product innovations have always been distinctive and ground-breaking. The new ID Wristbands, the Kids-ID-Bands and the Event Wristbands are all this and much more. They are future-oriented and extremely versatile, functional and, at the same time, trendsetting accessories with cult status.

It goes without saying that we also have classic price and goods labelling accessories and many great products for the catering trade and special events.

A photograph of a large crowd of people at a concert or festival. Many people have their arms raised in the air, some holding up mobile phones or cameras to take pictures or videos. The scene is bright and energetic, with a focus on the hands and arms of the audience members. The background is slightly blurred, emphasizing the foreground actions.

ID WRISTBANDS

A trendy accessory with a wide variety of uses:
durable, tear-proof and 100% safe.

NEW: KIDS-ID-BANDS

Sigel has now developed ID Wristbands for children that greatly contribute to a feeling of security for the parents. Don't rely on your child being able to find his way back to you if he gets lost in a crowd – rely on Sigel's innovative Kids-ID-Bands.

Safe!

The details noted on the wristband allow passers-by to contact the parents if a child is lost.

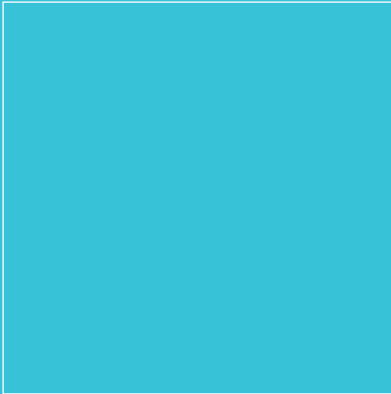

Simple!

Write your name and phone number on the wristband and fasten on – that's all! Reusable.

Funny!

The Kids-ID-Bands are not only practical, but are also cool. The kids certainly think so!

Safety for parents – cult status for kids.

The Kids-ID-Bands from the Sigel range mean that you'll be able to find your child again quickly if he or she gets lost. In addition to this, they come in a variety of great designs and can also be used as a trendy accessory or an unusual party invitation. Thanks to the practical safety fastener, the Kids-ID-Bands are reusable.

EVENT WRISTBANDS

The Sigel Event Wristbands are distinguished on the one hand by an impressive variety of possible uses. On the other hand they have unbeatable advantages that cannot be dismissed: they are non-transferable and, thanks to the security fastener, completely tamper-proof. In addition to this, they are tear-proof, easy to use and water-proof.

Event Wristbands – extremely versatile

- For discreet admissions at events of all kinds
- To distinguish between different groups of people (e.g. over-18s and under-18s)
- To tally the number of guests and much more besides

Only from Sigel: customization made simple...

The small pack of Sigel Event Wristbands (120 pcs) includes transparent labels that can be printed with an inkjet or laser printer and stuck onto the wristband. It is extremely simple to print your own text onto your Event Wristbands using the Event Label Software. No long delivery periods, no printing or shipping costs.

1 // Design

2 // Print

3 // Stick on

Simply download the free software from www.sigel.eu and you're ready to start.

Almost indestructible and yet pleasant to wear

There are two types of Event Wristbands in the Sigel range: PE or Super Soft. Brand new: the Super Soft Event Wristbands are made of extremely soft material.

1 // Security snap fastener // PE
2 // Adhesive seal // Super Soft

PRICE LABELLING

Take in the price at a glance:
Goods labelling is simplicity itself.

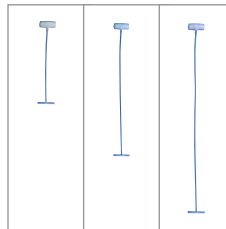

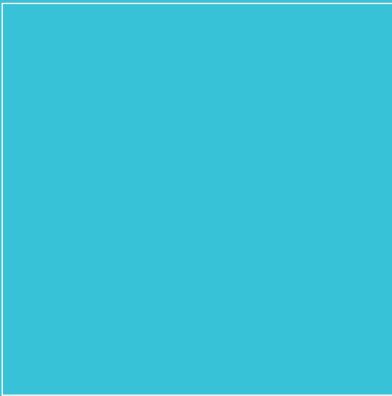

Clearly labelled prices – your customers will thank you

If you are not familiar with our practical solutions for goods labelling and price tagging, it's about time you were! For Sigel's wide variety of Tagging Guns, Goods Labels, Cords and Ties are the simple way to label your sales goods with price tags or product information. It just takes a few moments, but in the long-term you will be delighted by the difference it makes to your turnover! And your customers will thank you, too.

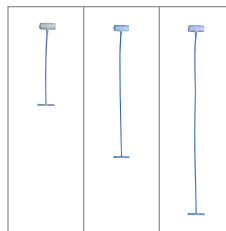

Tagging Gun standard / fine and accessories

The Tagging Gun is the ideal aid to fast, simple price tagging and goods labelling of textiles, shoes, leather goods and much more besides. Our tip: choose the tagging gun with a fine needle for silk and other fine textiles.

ACCESSORIES FOR CATERING TRADE

High-quality products that are made to last.
100% reliable, versatile and functional.

Culinary delights in an appealing package

When it comes to the catering trade, certain rules apply: not only should the food on the table be appetizing, but the very menu on which it is described should be mouth-watering. The perfect accessories for the beautiful presentation of your food and drink are available from the Sigel range.

Menu Folders

Present your culinary masterpieces on a high-quality, elegant menu. After all, even the description of the food should be a feast for the eyes! The Sigel Menu Folders with their elegant gold embossing are the tasteful way to place your range of dishes centre-stage. And it just takes a second to replace the menu of the day.

Menu Folder			No.

NEW!

New: Tokens – for cashless payment at events of all kinds

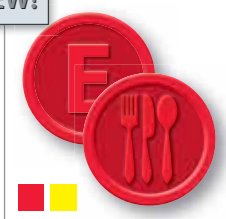

Sigel Tokens are extremely versatile: for deposits, as vouchers or as token coins for cashless payment. They simplify payment of food and drink at events of all kinds. Use the Sigel Tokens e.g. as deposits for the return of empty glasses and bottles. Different tokens can be used when different deposits are paid for different items. People are less likely to steal your crockery and, additionally, it reduces waste, as everything has to be returned to the serving counter.

- Symbols and letters in relief on the front and back for food, beer, deposit, drinks/coffee
- Further distinctions can be made with the different colours
- Reusable thanks to the sturdy material (plastic)
- Environmentally friendly and cost-saving

New: Cloakroom Check Numbers – quick, simple, practical

Sigel products put an end to stress at the cloakroom! Our Cloakroom Check Numbers are cleverly designed and guarantee perfect organisation! The special feature: in addition to the high-quality, numbered tokens, you receive labels with continuous numbering that can be affixed to the coat hanger or above the hook. Then simply hang the token on, too, and voilà! Jackets can now be exchanged for tokens – and vice-versa!

- Sturdy plastic for a long product life
- Multifunctional slot for coat hangers or hooks
- Continuous numbering with silver print
- Labels with continuous numbering to stick onto coat hangers or hooks

Cloakroom Check Numbers					No.
Cloakroom Check Numbers 001-100	red	made of plastic, incl. 100 labels with numbering for coat hanger or hook	35x50 mm	100 pcs.	GM 001
Cloakroom Check Numbers 101-200	red	made of plastic, incl. 100 labels with numbering for coat hanger or hook	35x50 mm	100 pcs.	GM 002
Cloakroom Check Numbers 201-300	red	made of plastic, incl. 100 labels with numbering for coat hanger or hook	35x50 mm	100 pcs.	GM 003
Cloakroom Check Numbers 310-400	red	made of plastic, incl. 100 labels with numbering for coat hanger or hook	35x50 mm	100 pcs.	GM 004
Cloakroom Check Numbers 401-500	red	made of plastic, incl. 100 labels with numbering for coat hanger or hook	35x50 mm	100 pcs.	GM 005

Get organised with the set of Sigel Cloakroom Check Numbers and Labels!

It's so simple:

Affix the label to the coat hanger or hook, then hang the token on. Hang up the jacket in exchange for the token! Good organisation is guaranteed!

1 // Affix label

2 // Hang up jacket

3 // Hand over token

Key

gsm = grams per square metre // Ink = inkjet // l = landscape // la. = label // mic = microns // mp = microporations // µm = micrometre // pcs. = pieces //
 PE = polyethylene // PP = polypropylene // sh. = sheet/s

Do our products appeal to your senses? Then come and visit us online at www.sigel.eu

This is where you'll find an overview of our complete product range. But we'll make sure you're not overwhelmed by a flood of information, as our innovative, hassle-free online and helpdesk tools help you to find the products you need quickly. The realistic product presentations in 3D display our products so clearly that you could almost reach out and touch them.

We are looking forward to seeing you at www.sigel.eu

Sigel. Business with all senses.
